## **The Art of Resting**

Restorative yoga was created by the Iyengar family in the 80's...

Restorative yoga is to rest deeply; it is a state in which there is no movement, no effort, and the brain is quiet. We will use props to move the spine through its range of motion, invert to move the fluids of the body to enhance heart function, stimulate and sooth organs, and through breath work, balance Prana and Apana energy. Join me, to find middle ground between over-stimulation and depletion as we embrace the new year of 2025.

**Reset, renew, relax, restore, regenerate, retreat, reflect and let go!**
